

TALGO PlusConcept

PERGOLA

Gratulerer med din nye pergola i MøreRoyal®!

Før montering kontrollerer du følgende:

- Alle deler, inklusive skruer etc er på plass i pakken (se oversikt s 3)
- Byggeplassen er ryddet og klargjort for montering av din pergola
- Alle deler du trenger som ikke er med i pakken er tilgjengelig.
(Evt. ekstra festemateriell, forankring mot bakken)
Kontakt gjerne din forhandler for forankringsmuligheter for ditt spesifikke underlag.

Ved montering:

Følg trinnene i monteringsanvisningen

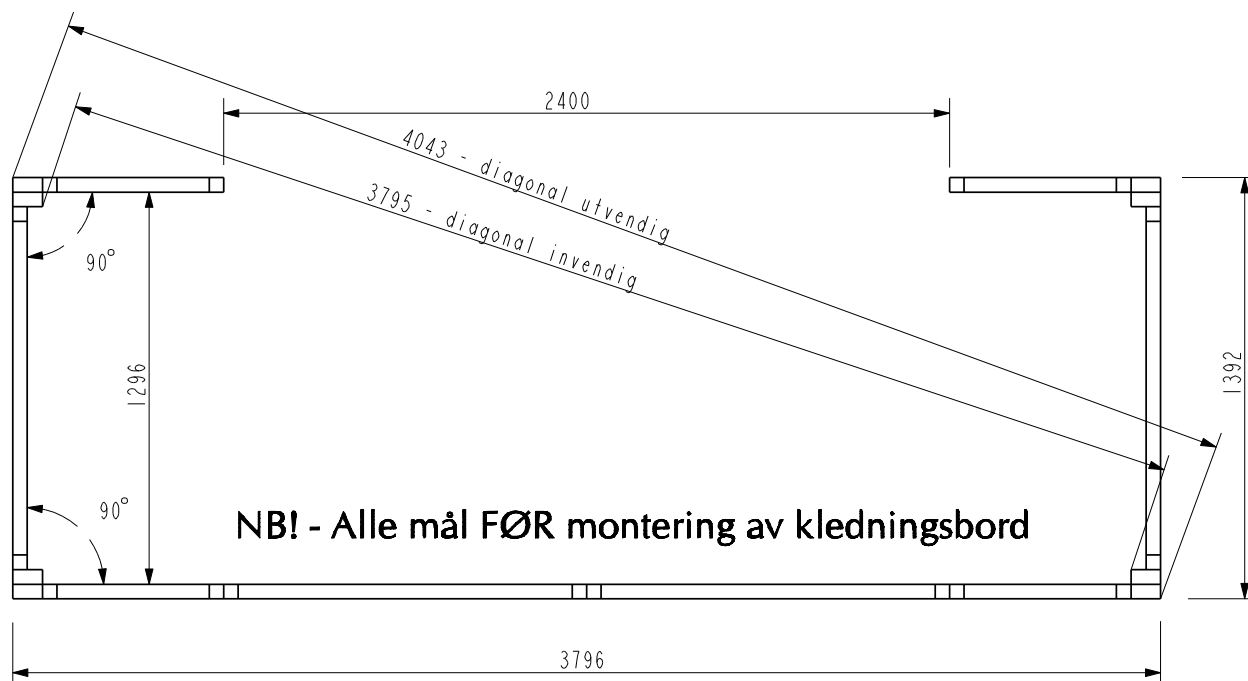

Det er best å være minimum to personer ved montering: en til å holde og en til å montere delene sammen.

Du trenger:

- Målbånd (til å kontrollere diagonalmåål og til å velge de korrekte delene)
- Hammer
- Umbraco (4mm)
- Batteridrill med torx bits (T3 og T4)
- Gardintrapp

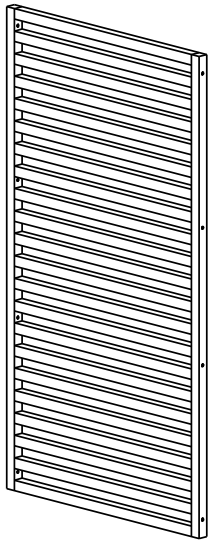

Plassering:

Plasseres på et plant, stabilt og helst vannrett underlag.

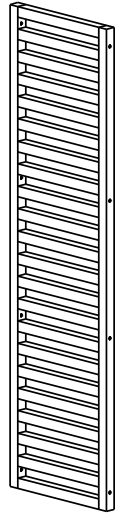

Generelt:

Montering av pergola skal skje i h.t. instruksjonene i denne monteringsanvisningen. Garantien bortfaller ved feilmontering, ureglementert bruk, samt ved manglende periodisk ettersyn. (kontroller at alle viktige festepunkter sitter godt.)
